Below you will find 52 different landscape and nature photography challenges that you can accomplish throughout the course of a year. You don't need to go through them in order, and you can start any time of the year. Some of the challenges will require you to be in a certain type of location (such as a waterfall) and others are for specific seasons. Feel free to tackle each challenge whenever the conditions allow. Check off each one as you accomplish it. If you'd like to showcase your photos please post them to the [Loaded Landscapes Facebook page](#).
